/ continued

Hutton Lowcross and Roseberry Common	New map of Hutton Lowcross (Paul Taylor) with updates by (Charles Mayes and Paul Taylor)
Runswick Bay	Updated for Autumn Series (Chris Wright)
Kiplin Hall	Updated for Autumn Series (Chris Wright)

Future Projects

Newton Aycliffe

A major new project is the creation of an urban map of the town. This will be a team project under the direction of Phill Batts. The team is currently Phill Batts, Dennis Hooton, Dave Riches and Martyn Dean.

Bedale

A new project by Martyn Dean

Potential new areas

Ugglebarnby Moor, Sneaton (suggested by John Green)

A small area, but capable of providing a limited classic orienteering event, situated at Red Gate on the B1416 between the potash mine and Littlebeck. The terrain is unmanaged moorland with rapidly colonising pine and birch woodland. There is a small coverage of mature and runnable pine plantation, some old quarry workings and a path network at the northern (Ugglebarnby – Pokeham Brow) end. The ownership is Grosmont Estate, an organisation we haven't contacted yet.

Other mapping reports:

Mapper training

Phill Batts has been constantly active in training and advising members who have been very generous and given up some of their own time to develop their skills and assist in keeping maps up to date.

CLOK map layout

Another reminder. The agreed, new layout needs to be applied to all CLOK maps.

The specific details of the new map layout are on the CLOK web site in the 'Event Organisation Toolkit' – Planning section.

However, 'off the peg' layout files can be found on the CLOK Google Drive.

Please note that on any reproduction of a CLOK map such as RouteGadget, there is credit information that must be included. The most important item is the Ordnance Survey Licence details including the licence number. This is a legal requirement.

CLOK Google Drive

The Mapping spreadsheet on Google Drive is regularly updated so that anybody planning an event should be aware of the status of any mapped area. PLEASE CHECK.

Current OCAD map files are stored on the Google Drive. Please be very careful when accessing these files to make sure that only the most up to date map is used. The latest map should now have a date as part of the file name in the form 'Clokland Wood 211019'; i.e. year, month, day so that they automatically fall to the bottom of the list in the folder.

The issue is that in some cases older or partial maps have been used and even partially updated. The rule is that corrections are only applied to the full canvas. Any partial maps should be deleted after the event or moved to 'Archive Map Files'.

If in doubt, please contact me or Phill Batts
